

**Master of Science in Computational Mechanics/
Master on Numerical Methods in Engineering**

ACCEPTANCE OF INTERNSHIP WORK PLAN

Name of the student	AKMALJON SHOKIROV
---------------------	--------------------------

Company/Institution	Institute of Earth Sciences Jaume Almera (CSIC)
Name of the supervisor	Adelina Geyer Traver
Department	Environmental Geology and Geohazards
Start and end dates	13/06/2015 – 31/08/2015
Total number of hours	280

Main tasks: <ul style="list-style-type: none">• Learning the use of COMSOL Multiphysics Software• Understanding the complexity of modeling geological processes• Designing a model to simulate internal fluid dynamic processes during magma chamber withdrawal

Additional remarks:

Any change in the information contained in the internship agreement must be authorized by the local master coordinator.

Date: 01/06/2015
